

## Digital Communication Projects Managed Portfolios. "Closed-Door" Groups.

- **Simplicity.** "Easy to use" tools have been time-tested and refined over 5 years with digital projects designed to promote and engage in world-wide promotions. Students focus on communication projects, not learning a complicated tool.
- **Depth.** 100+ projects model communication forms and functions for a range of learning purposes, settings and language skills in English, Spanish, and French.
- **Dashboard Control.** Organize groups -- up to 40 members. Sequence projects, assess submissions, and approve publications in a "closed-door" environment accessible from any browser.
  - **Tracking.** Track student performance using assessments aligned with National Standards in Digital Communication.
  - **Sharing.** Control printing and emailing projects. Provide PDF and WebBook portfolios. Host "invitation-only" events for "family & friends."

Rent one portazo "front door" (your private portazo URL) for \$1.99/month. Manage your front door space and log-in list for up to 40 members. Control the sequence of over 100 easy-to-use communication projects. Track progress, model a publishing process, and host "open houses". Provide digital portfolios to parents for keepsake publishing, schools for yearbook alternatives, and classroom publishing/fundraising events.

## Workspaces

Easy-to-use publishing templates and secure personal workspaces allow students to create and share projects quickly and safely. Step-by-step instructions and directions in the template guide authors through each digital media project.

## Toolkit Options

Teachers can:

- assign
- sequence
- track
- assess
- publish
- share, and
- report on progress.

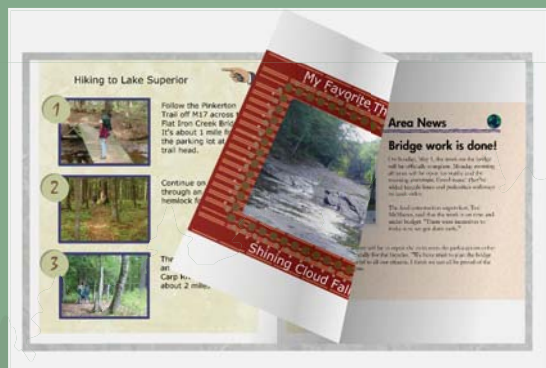

## English, Spanish, French

The interface and instructions are currently available in English, Spanish, and French. This technology has already been deployed in 14 languages including Chinese, Japanese, and Korean.

## Toolkit Options

Teachers can:

- create groups
- set unique projects
- specify language
- allow group feedback
- allow visitor comment.

## Portfolios

Portfolios are available in pageflipping "WebBooks" and "PDF" formats for online display and custom print options. Teachers control the rules for publishing, group review, and guest log-ons to view portfolios.

## Toolkit Options

Teachers control:

- "members only" logins
- publishing & printing
- sharing projects
- feedback & comments
- "invitation only" access
