

Name: _____

Date: _____

Visualization!

Directions: Use this graphic organizer to help you find language in the story that helps you visualize a particular scene. Write the words from the story, and the page number on which you find it. Think about what you know about a scene like that, and write that in the next space. Finally, draw the picture you see in your mind because of the language in the story and what you know.

Words from the story and page number	What you already know	Picture you see in your mind
